

NOVA PEAK

FINISHED HARDWOOD PANEL OPTIONS

States' NOVA PEAK panels represent 10 contemporary wood colors matched to four natural hardwood species including Maple, Oak, Cherry and Mahogany. These panels carry high grade veneers and matching finishes on both sides. They are available in 1/4" MDF core and 3/4" veneer core panels. Both are packaged in 10 piece units. All colors and species shown are available in small quantities.

Premium Stock Color Panels

Ingenuity, It's in everything we do.

As beautiful and timeless as the Oregon mountains they are named for, NOVA PEAK panels allow cabinet and furniture makers to take advantage of ultraviolet curing technology without requiring excessive minimum orders. NOVA PEAK panels are shipped in ten piece units.

Premium quality hardwood veneered panels, stained and finished on both sides with State's superior NOVA[®], ultraviolet cured epoxy acrylate topcoat, NOVA PEAK panels make fine finishing of custom casework a snap.

NOVA[®] prefinished panels have set the standard in the industry since they were introduced in 1992. Since then States has supplied hundreds of manufacturers with custom color matched panels for production runs. Until now, shops requiring smaller volumes of panels have been limited to NOVA[®] clear finishes, but the introduction of our NOVA PEAK collection is changing all that, ten panels at a time.

Ten piece units of B whole piece faced Maple, B plain sliced Golden Oak, A plain sliced Cherry, or A plain sliced African Mahogany, with beautiful and durable NOVA[®] color finishes applied to both sides make it possible to create extraordinary casegoods one kitchen or media room at a time.

Mount Hood

These species, grades and colors have been carefully selected to represent the most beautiful finishes in our extensive library. They are suitable for styles from the most traditional to ultra contemporary. Matching stains from MINWAX[®] are readily available for solid wood components.

By limiting panel construction options to 1/4" MDF cores and 3/4" veneer cores, we are able to offer these as "stock" items and package and sell them in small quantities. Variations to these basic constructions will be subject to custom color quantity minimums.

Color Name	1/4" Item Number	3/4" Item Number	MINWAX [®] Stain Match
