ANSI/HPVA HP-1 Certification

States Industries

29545 E Enid Road
Eugene, OR 97402

HPVA Laboratories recognizes this mill's production as certified to the *American National Standard for Hardwood and Decorative Plywood (ANSI/HPVA HP-1 2016)*. The products listed in this certificate, as defined by the facilities' Quality Control Manual, may now carry the HPVA Laboratories certification label. Certification is granted to this facility based on annual audits demonstrating conformance and commitment to a quality management system that ensures all requirements of the standard are met. Product conformance is determined through on-going in-house and third party testing/evaluation of product types for moisture content, three cycle soak (type II glue bond), dimensional tolerance (thickness, length, width, squareness, and straightness), chemical resistance (pre-finished only) and formaldehyde emissions as stated in the HP-1 standard.

Scope of Certification

Product Type(s)
1.) Hardwood Plywood – Veneer Core*
2.) Hardwood Plywood – Composite Core*

*pre-finished and unfinished

Effective date of certification:
June 5th, 2017
